2024 ASEE Annual Conference
Engineering Library Division

This year, ELD has two opportunities to share your exciting projects, programs, tools, and teaching. Both sessions will be held on Monday, June 24. The first is our lightning talk session from 1:30 to 3 p.m., and the second is the AI teaching exchange session from 3:15 to 4:45 p.m. Please see both descriptions below for more information and the link to the proposal submission form.

Lightning Talks

What is a Lightning Talk?

A Lightning Talk is a very short presentation on a timely topic of interest to the audience. This year, we are hoping for a variety of talks on any topic, including but not limited to:
- Digital initiatives
- Innovative projects, programs, or services
- New partnerships
- New technology, tools, or products

Each Member Talk is 3 minutes long, and each Sponsor Talk is 1 minute long. The main goals are to learn about what our peers and sponsors are currently working on and to generate discussions during the session and throughout the conference.

AI & Information Literacy Teaching Exchange

This year, the artificial intelligence (AI) and information literacy teaching exchange is a new session for ELD. It will be held on Monday, June 24, from 3:15 to 4:45 p.m. This session aims to explore how librarians and faculty are incorporating AI into their information literacy instruction, reference services, learning tools, and assessment strategies. Submit a proposal to share your experience, successes, and challenges.

We seek proposals from those who have used AI in their information literacy teaching; some ideas might include:
- Teaching about AI during information literacy sessions?
- Working with faculty and instructors around the use of AI and information literacy.
- Are you using AI during reference, either face-to-face or virtually?
- Designing assignments that involve AI?
- Assessment of learning through AI?
- Created learning tools using AI? Or that incorporate the use of AI?
- Integrated a specific AI resource into your information literacy curriculum?

The AI teaching exchange will consist of 45-60 minutes of short presentations on using AI in information literacy instruction. The specific time limit for the presentations will depend on the number of proposals received and accepted. Following the presentations, there will be breakout sessions for further discussion. This session provides an opportunity to exchange ideas and learn from colleagues.

Submit your proposals to https://wsu.co1.qualtrics.com/jfe/form/SV_0JL0XWGdHewnGsK by Friday, May 3.

There are a limited number of opportunities to present lightning talks as well as AI & information literacy proposals. Presenters must attend the ASEE conference in person, attend the full session (lightning talk or AI & information literacy teaching exchange), and answer questions during Q & A.

Please contact us if you have questions about:
Member Talks: Shelby Hallman (shallman@library.ucla.edu)
Sponsor Talks: Marina Zhang (qianjin-zhang@uiowa.edu)
AI Teaching Exchange: Chelsea Leachman (chelsea.leachman@wsu.edu)
