

Meritorious Award

Dr. John Krupczak, Jr.

For being Instrumental and critical in establishing the division (founder).

For having served the division faithfully since its inception as an officer and as program chair, and engaging in pioneer work to reframe and stimulate innovation in the field of technological literacy/philosophy of engineering.

For engaging in regular outreach activities to promote technological literacy/philosophy of engineering to the public at large and the educational community in particular, especially across the spectrum of ASEE.

For having consistently authored papers, conducted panels, and led workshops at ASEE on behalf of the division in a way that has added significantly to the literature of technological literacy/philosophy of engineering.
