

JUNE 24-25, 2022

MINNEAPOLIS, MN

## WORKSHOP: NEXT GENERATION LEARNING-CENTERED ENVIRONMENT FOR ARCHITECTURE, ENGINEERING & CONSTRUCTION (AEC) EDUCATION

### **GOAL**

To create a shared vision of the next generation learning-centered environment for AEC education through exploring the relationship among humans, learning, and technology in varied social contexts.

### **WHO SHOULD ATTEND**

We want to engage faculty from a wide range of institutions (two-year, four-year, research, predominantly undergraduate, minority-serving, etc.) as well as professional society members and practitioners in AEC and related information technology industries.

### **BENEFITS**

- No registration fee.
- Join a cohort of visionary AEC researchers and educators to collaborate on future proposals and publications.
- Some selected participants will receive honorarium and travel reimbursement.

### **REGISTER NOW!**

Space is limited. For full consideration, please apply by April 30, 2022.
