

Dear BED members,

For those of you who read my last newsletter, you know I promised you a hiatus for the January 1 newsletter -- but Dr. Zeynep Erim, Ph.D. from NIH reached out and let me know about a great opportunity for our education community at NIH that will ***open to applications on January 18, 2022, and close on January 27, 2022.*** Thus, I wanted to help her distribute this news and give people ample time to think about the posting if they are interested -- it'll be a fast turn around. We will resume our traditional format on the 15th.

The National Institute of Biomedical Imaging and Bioengineering (NIBIB) is seeking a creative, energetic and dedicated individual for a Program Director position in the Division of Interdisciplinary Training (DIDT). The responsibilities of the position include: all aspects of training grant management including interacting with potential applicants, recommendation of applications for funding, management of funded grants and awards, outreach, portfolio analysis, program evaluation, identification of critical gaps and development of initiatives and measures to address these. The ideal candidate will have a PhD in Biomedical Engineering or Bioengineering, several years of professional experience beyond postdoctoral studies, and a genuine interest in the advancement of biomedical technologies and workforce development. Strong analytical, interpersonal, organizational, and written and oral communication skills are essential for success in this position.

Zeynep Erim, Ph.D.
Director, Division of Interdisciplinary Training
National Institute of Biomedical Imaging and Bioengineering
Zeynep.Erim@nih.gov
(301) 451-4797

Applications for the position may be submitted through usajobs.gov under the "Health Scientist Administrator (Program Officer)" listing. The listing is scheduled to open to applications on January 18, 2022, and close on January 27, 2022. Applicants submitting applications for this position are strongly encouraged to contact Dr. Erim directly to indicate their interest. More about global recruitment and tips for applicants can be found at <https://www.nibib.nih.gov/aboutnibib/careers/job-faqs>.

Be well and in good health!
Aileen Huang-Saad, BED Division Chair
The Roux Institute, Northeastern University
